

# 1. SPINNING MACHINES

## 1.8 – CARDS

### 1.1.08.001

#### **NO. 4 Carding machines Marzoli CX300 – y.o.c. 1994**

- Silos B136;
- Autoleveller electronic LOPTEX SLT4;
- Output vessels 40 "x45";
- Cambiavaso automatic;
- Cappeliera Mobile;
- Incoming Hollingsworth carding plate;
- Hollingsworth carding plate output + knife;
- Carding plate sottobriseur original Marzoli;
- Drum brake disc;
- Centralized suction;
- Electrical panel with MB90 and display;
- Inverter control doffer;
- Seal existing : cotton

### 1.1.08.002

#### **No. 7 Carding machines Truetzschler DK803 – y.o.c. 1997**

- Silos power;
- Self-Regulating electronically;
- Output vessels 40 "x45";
- Can changer with 3 positions;
- Coiler KH950/1000.

### 1.1.08.003

#### **No. 4 Carding machines Truetzschler DK903:**

- Silos power;
- Self-Regulating electronically;
- Output vessels 40 "x45";
- Can changer with 3 positions;
- Coiler KH950/1000.

# 1. SPINNING MACHINES

## 1.8 – CARDS

### 1.1.08.004

**Complete Plant of Carded Spinning** composed with:

#### PREPARATION Department

- N.2 cells (iron panels) with opening milling machine
- N.1 cleaning picker model with revolving reel equipped with cyclone inlet and suction nozzle of exit material
- N.1 opener with cylinders entry and drum with wood lags and steel round point; machine equipped with inlet cell (without suction) and outlet hopper
- N.1 metering and mixing apparatus for ensimage (inox steel)

#### CARD Department

N.1 card set Octir mod.Titano, H=2500mm, years 1977, composed with:

- Metering feeder with mechanical balance storage silos and feeding table
- Breast with inlet group, feed-roller dia.400, drum dia.1650, comber dia.1270, 7 carding couples + flying group
- **1st card** with conveyor cylinder from breast comber to card drum, drum dia.2000, comber dia,1500, 6 carding couples + flying group and fleece doffing comb
- conveyor composed with 1st part with lapper slivers, underground connection to 2nd part with rod sliver, 2nd part with folder trucks for lap rectilinear distribution on feeding table
- **2nd card** with inlet group, feed-roller dia.350, drum dia.2000, comber dia.1500, 8 carding couples + flying group and fleece doffing comb
- hydraulic pressure strainer (peralta) with cylinder dia. 300, complete with doffer cylinder and fleece doffing comb
- conveyor composed with: 1st part with folder truck, underground connection to 2nd part with rod sliver, 2nd part with folder trucks for lap rectilinear distribution on feeding table
- **3rd card** with inlet group, feed-roller dia.350, drum dia.2000, comber dia. 1500, 8 carding couples + flying group and fleece doffing comb
- **4th card** with connection to 3rd card sliver + conveyor cylinder dia.300, drum dia.2000, comber dia.1500, 8 carding couples + flying group and fleece doffing comb
- divider to simple rubbing prepared for 216 yarns, same mechanical division of mm10.8; model 1 lace 1 yarn, complete with oscillating hollow lap rollers
- machine equipped with: frame for cylinders cleaner model Octir, rollers for divider and roller, n.1 division of 240 yarns

#### SPINNING Department

- N.2 selfacting Bigagli model B5, year 1980, n.550 spindles each
