

2. WINDING, TEXTURIZING and TWISTING MACHINES

1.1 – CONE TO CONE WINDERS

2.1.01.109

No. 1 cone to cone SSM winders model DP1 40 heads y.o.c. 2001

6 – 8 – 10" traverse – cylindrical package 4
Automatic doffing with conveyor belt to discharge cones
Unit precision cross
Optical unit yarn detection
Individual motor per head
Waxing device
Overhead blower

2.1.01.111

Electronic Cone to Cone Simet winder mod. SES/AL y.o.c. 2007

50 heads – 6" traverse –
grooved drum system with drum diam. 125 mm
1,5 twist parallel (for dyeing)
package conic 4°20" or 5°57" or parallel
Electronic meter counter
Programmable for package stop both in meters and in
weight in function of the title of yarn to wind
Speed max 1.200 m/m
Double positive feeders
Waxing device
Single motor per head driven by inverter and potentiometer

2.1.01.112

Electronic Cone to Cone Corghi winder mod. RI 200 y.o.c. 1998

9 independent heads single front
8" traverse
package conic 5°57"
Mechanical slub-catcher
Waxing device
Positive feeder
Head stop at required diameter

2. WINDING, TEXTURIZING and TWISTING MACHINES

1.1 – CONE TO CONE WINDERS

2.1.01.114

Electronic Cone to Cone Corghi winder mod. R-E 24

4 heads – 6" traverse –

Yarn guide system

package conic

Electronic meter counter

Waxing device

Single motor per head driven by inverter and potentiometer
