

2. WINDING, TEXTURIZING and TWISTING MACHINES

4.10 – CHENILLE MACHINES

2.4.10.187

No. 2 fully electronic chenille machines

Giese model AC 91/E - 1998

96 spindles each

Rotating blade system - Ring size diam. 115 mm

Complete with standard creel

2.4.10.210

No. 1 electromechanical chenille machines

Huzur model HZR - yoc 2007

96 spindles – tangential belt system

Rotating blade system - Ring size diam. 115 mm

Complete with standard creel

2.4.10.211

Chenille plant composed by:

**No. 1 chenille machine G&G model ACTA 112 spindles
y.o.c. 1997**

**No. 1 chenille machine G&G model ACTA 112 spindles
y.o.c. 1997**

**No. 1 chenille machine G&G model ACTA 120 spindles
y.o.c. 2000**

Rotating blade system - Ring size diam. 115 mm
complete with standard creel

**No. 1 winder Corghi 6 heads
grooved drum 10" traverse complete with Iteco chenille
clearers – y.o.c. 1997**

**No. 1 winder Attucci 9 heads
grooved drum 10" traverse complete with Iteco chenille
clearers – y.o.c. 1997**
