

## 5. KNITTING AND HOSIERY MACHINERY

### 4.5. – WARP KNITTING MACHINES

#### 5.4.05.008

##### **No. 2 Double needle bed electronic warp knitting machines**

##### **Brand Comez model DNB/EL 800 – y.o.c. 2005**

Gauge 10 – 6 weft bars – operating width 800 mm

##### **No. 1 machine y.o.c. 2005 complete with:**

DAM/800 – automatic stop motions for incorrect product winding onto the rollers

DAR/800 - automatic stop motions for thread breaks or empty cones

ALDFT/STR – differential 3-roller feeder for weft threads (electronic drive)

TIR/800.EL – take down rollers of the finished product (electronic drive)

BANC-P/D – rear support bench

CREEL 600 pos. gauge 22  
with double tension with thread stop

##### **No. 1 machine y.o.c. 2010 complete with:**

DAM/800 – automatic stop motions for incorrect product winding onto the rollers

DAR/800 - automatic stop motions for thread breaks or empty cones

TIR/800.EL – take down rollers of the finished product (electronic drive)

BANC-P/D – rear support bench

CREEL 800 pos. gauge 22  
with double tension with thread stop
