

8. DYEING and FINISHING MACHINERIES

5. TENTERING AND DRYEING MACHINES

8.5.02.001

Bruckner singlelayer stenter machine – y.o.c. 1998

Working width 2000 mms.
8 chambers gas heated
Vertical pin chain
fabric delivery in plait and in roll
Beta padder
Mahlo weftstraightener
Mahlo Permaset device

8.5.02.002

Drying and thermofixing line for knit fabric and woven fabric composed by:

Stentex stenter machine model Stentotherm 3300 – y.o.c. 1998

working width 2.200 mm
Fabric introduction arms, length 6 meters.
Steaming unit, located under the fabric introduction arms
Selvedges gluing unit on the introduction side
N° 7 chambers, 2 meters each one, heated by N° 7 gas burners
Pin vertical chain with anti-depinning system
Max. speed 5 - 80 mt./min.
Cooling on the delivery side
Trimming and suctioning devices for the selvedges on the delivery side
Delivery of the fabric in plait and big roll

Squeezer Beta with 3 rubber rollers – y.o.c. 1990

Version in stainless steel
Rollers width 2400 mm. – working width 2200 mm
Possibility of differentiating the squeezing pressure
Double impregnation tank
Dancing roller

Weft straightener Bianco Mod. MDC – y.o.c. 1998

Introduction with centring widening device Bianco
Rollers width 2.400 mm.
Useful working width 2.200 mm
N° 6 optical reading heads

Coating bench Aigle mod. BC/SR with doctor blade

y.o.c. 1999

Rollers width 2.200 mm - working width 2.000 mm.

The coating bench is equipped with a rotary printing head, with connection Stork, this head is connectable or disconnectable

8. DYEING and FINISHING MACHINERIES

5. TENTERING AND DRYEING MACHINES

8.5.02.003

KRANTZ STENTER y.o.c. 1979

Working width 2200 mm
4 chambers, gas heating
Introduction E+L, entry 3 mts,
vertical pin chain, cooling zone, exit rolling device.
In excellent running condition.
No padder, No weft straightener

8.5.02.004

BRUCKNER MULTI TIER TENTER – y.o.c. 1995

fabric content 60 mts - gas heating - 12
burners - horizontal chain
BETA padder at the inlet .
BIANCO weftstraightener
MAHLO THERMOSET or temperature control
of the fabric
cooling at the exit + big batch and plaiter

8.5.02.005

BRUCKNER flat stenter - y.o.c. 1986

ww.mm.2200 – 7 chambers -
OIL heating
Horizontal chain ONLY pin
Equipped of coating head
